In our first meeting, we received an educational overview of Plant Vogtle – including the operations with reactors 1&2 and an update on the construction of reactors 3&4. In our second meeting, we discussed the future of nuclear power in the United States. The following day we visited Plant Vogtle to tour the currently operating reactors, the training center for the control room of the reactors under construction, and driving tour of the construction sites of the reactors under construction. Following the tours, we wrapped up with a general question and answer session about Plant Vogtle.

## SELECT COMMITTEE ON ETHICS

March 27, 2017

Brianne Miller  
Committee on Energy and Natural Resources  
United States Senate  
Washington, DC 20510

Dear Ms. Miller:

This responds to your recent correspondence concerning an invitation you received to travel to the Educational Staff Tour of the Vogtle Electric Generating Plant, in Waynesboro, Georgia on April 12-13, 2017, sponsored by the Foundation for Nuclear Studies. The Foundation for Nuclear Studies certified to the Select Committee on Ethics (the Committee) that it will pay the *necessary expenses*<sup>1</sup> related to the travel and that it is neither a lobbyist, nor lobbying firm, nor an agent of a foreign principal, and it is not otherwise acting as a representative or agent of a foreign government. The Foundation for Nuclear Studies has also certified that it does not retain or employ a registered lobbyist or agent of a foreign principal, and that no registered lobbyist will accompany you at *any point throughout your trip*.<sup>2</sup>

Based on information and materials available to the Committee, and assuming the **actual** travel and travel-related expenses conform to the information and materials you provided, it appears that the proposed payment or reimbursement of necessary expenses for this trip **may be accepted** under relevant Senate Rules and the Committee's *Regulations and Guidelines for Privately-Sponsored Travel*, so long as at the time of the payment or reimbursement, the Foundation for Nuclear Studies is neither a registered lobbyist nor lobbying firm under the Lobbying Disclosure Act of 1995, nor an agent of a foreign principal under the Foreign Agents Registration Act (and is not otherwise acting as a representative or agent of a foreign government), and provided the travel and all required documents are disclosed to the Secretary of the Senate in accordance with the provisions of Senate Rules 34 and 35.

Under Senate Rule 35, Senate staff must receive advance authorization signed by the Member or officer under whose direct supervision the individual works in order to accept payment or reimbursement for necessary expenses related to fact-finding travel. Further, such authorization and expenses must be disclosed to the Secretary of the Senate by filing the completed *Employee Pre-Travel Authorization* and the *Employee Post-Travel Disclosure of Travel Expenses* (Form RE-1 and Form RE-2), along with a copy of the *Private Sponsor Travel Certification Form*, and all relevant attachments (e.g., the private sponsor's invitation and

<sup>1</sup> The term "necessary expenses" has a specific definition. See *Select Committee on Ethics' Regulations and Guidelines for Privately-Sponsored Travel – Glossary of Terms* at 8.

<sup>2</sup> The term "any point throughout your trip" has a specific definition. See *id.* at 2.

itinerary) **within 30 days of the conclusion of Privately-Sponsored Travel.**

Finally, Senate Rule 34 requires a reporting individual,<sup>3</sup> on his or her Financial Disclosure Report, to make an annual disclosure of the receipt of payments or reimbursements under Senate Rule 35 from a private sponsor for officially-related travel expenses where, in the aggregate, travel expenses exceed \$390 from that sponsor during a calendar year. However, if a Member, officer, or employee properly reports the receipt of necessary expenses for such travel to the Secretary of the Senate within 30 days of the travel, as discussed above, the travel expenses need not be disclosed a second time on their Financial Disclosure Report.

I hope you find this information helpful. If you have any additional questions, please do not hesitate to contact the Committee.

Sincerely,

Deborah Sue Mayer  
Chief Counsel and Staff Director

#### **Attachment 2 – Question 13:**

The Foundation for Nuclear Studies, a 501(c)(3) nonprofit, provides information and educational opportunities for policymakers and the general public about nuclear science and technology, with the objective of promoting sound national policy.

In an effort to expand our programming, the Foundation is embarking on this trip as part of our ongoing educational site tour series, which will provide congressional staff with firsthand knowledge of working nuclear plants and research facilities. Through our briefing series on the 2011 events in Japan, the Foundation discovered that even staffers with a background in nuclear fields lack firsthand experience with nuclear plants and demonstrated a strong interest in being able to tour a facility.

This trip should provide those staffers with relevant experience to make better informed policy decisions as they perform their various roles on Capitol Hill.

#### **Attachment 3 – Question 15:**

In pursuit of its mission to provide information and educational opportunities for policymakers and the general public about nuclear science and technology, the Foundation sponsors a highly regarded Congressional Briefing Series with forums on a broad spectrum of issues related to nuclear technology, ranging from medical isotopes to the transportation of nuclear materials. The events attract high-quality speakers and seek to provide a balanced presentation of differing perspectives.

#### **Attachment 4 – Question 18**

The Foundation selected Waynesboro, GA because it is the site location for Plant Vogtle. The site hosts two operating nuclear reactor units; and is currently constructing two new planned reactor units, which have received operating licensing approvals from the Nuclear Regulatory Commission. Additionally, Plant Vogtle is home to a new plant training simulator room. The reason for traveling to Augusta, GA is due to the city having the closest airport.

#### **Attachment 5 – Question 21**

The Foundation has secured a group rate for the Augusta Marriott at the Convention Center of \$100 (before taxes) for the night of Wednesday, April 12. This rate is on par with the \$100 government per diem rate for Augusta, GA in April.

We chose the hotel due to its relative affordability, proximity to the airport, dining location and our destination in Waynesboro, GA. The proximity factor played a key role in our decision as we will be hosting our Wednesday night working dinner with Southern Nuclear Chairman, President and CEO, Stephen Kuczynski in the restaurant that is located in the hotel. We found that many restaurants in Augusta could not provide either the appropriate meal rate or large enough room to accommodate our group's working dinner. Additionally, the hotel will be able to provide a shuttle from the airport for our group and the hotel's café will be able to provide a boxed breakfast for our group in the morning. All of these considerations will cut down on additional travel costs.

Therefore, given the discount and the other considerations listed above, we felt that this hotel would provide us with the best rate and would enable us to stick to our itinerary. As a result we entered into a contract with them.
